GUIDE

1 What this sheet practises

Finding how many objects are in a set by skip counting by 2s, 5s and 10s, up to 120, instead of counting one at a time.

2 A problem from the sheet, worked out

Count the groups Skip count by 2s, 5s or 10s. How many in all?

By 2s: **10**

How: Point to each group and say the next number: 5, 10, 15, 20. The last number said is how many in all.

3 Words to know

skip count count by jumping the same amount each time

pair a group of two

group things that go together

in all the total

4 Watch for

- Counting each object by ones inside a group, then losing track.
- Switching from 5s to 10s partway through.
- Counting 95, 100, 150 instead of 105.

5 Where it fits

BEFORE

K.CC.A.1

Count to 100 by ones and by tens.

THIS SHEET

1.5B

Skip-count by 2s, 5s and 10s to find how many objects, up to 120.

NEXT

2.NBT.A.2

Count within 1000, and skip-count by 5s, 10s and 100s.

6 Helping at home

Count shoes by 2s, fingers by 5s, and dimes by 10s. Ask why skip counting is faster than counting by ones.
