How many flowers and leaves in all? 12

Which is there the most of? flowers

Bar graph Read each bar across to the numbers.

How many fish? 6

How many more fish than ladybugs? 1

How many ladybugs and leaves in all? 13

Freddie's Frog Pond

Grade 1 · Tally charts and picture graphs · 1.MD.C.4

GUIDE

1 What this sheet practises

Sorting things into up to three groups and showing them in tally charts, picture graphs and bar graphs, then answering how many and how many more.

2 A problem from the sheet, worked out

Tally chart Each | is one. A bundle of five is crossed.

 fish		How many fish?	<u>7</u>
 flowers		How many more fish than flowers?	<u>3</u>
 ladybugs		How many flowers and ladybugs in all?	<u>7</u>
		Which is there the most of?	<u>fish</u>

How: Each tally mark is one; the fifth mark crosses a group of four. Count by fives, then ones. To find how many more, take the smaller count from the bigger one.

3 Words to know

tally mark a line that stands for one

graph a picture that shows counts

most the biggest count

fewest the smallest count

4 Watch for

- Counting a crossed bundle as 4 or 6 instead of 5.
- Adding the two counts when the question asks how many more.
- Reading the wrong row.

5 Where it fits

BEFORE

K.MD.B.3

Sort objects into groups and count each group.

THIS SHEET

1.MD.C.4

Sort, show and read data with up to three categories.

NEXT

2.MD.D.10

Draw picture graphs and bar graphs with up to four categories.

6 Helping at home

Sort socks, toys or fruit into three groups and make tally marks for each. Which has the most?
