GUIDE

1 What this sheet practises

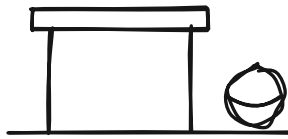

Using position words to say where something is: above, below and beside. Your child looks at where the ball is and writes the matching number.

2 A problem from the sheet, worked out

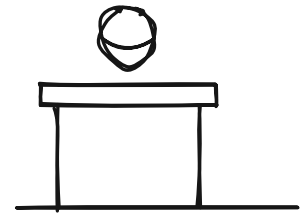

Where is the ball? Write 1 for above, 2 for below, 3 for beside.

2

3

1

How: Find the table first, then the ball. Over the table is above; under it is below; next to it is beside. Write the number for that word.

3 Words to know

above higher than; over

below lower than; under

beside next to, at the side

position where something is

4 Watch for

- Calling a ball on the floor next to the table “below” because it's low down.
- Mixing up the numbers: 1 is above, 2 is below, 3 is beside.
- Looking at the ball alone, without comparing it to the table.

5 Where it fits

THIS SHEET

K.G.A.1

Describe where things are: above, below, beside, in front of, behind, next to.

6 Helping at home

Play a hiding game: put a toy above, below or beside a chair and ask where it is. Then let your child hide it and tell you.
