GUIDE

1 What this sheet practises

Adding and taking away with pictures: putting two groups together and counting them all, or crossing some out and counting what's left.

2 A problem from the sheet, worked out

Put together Count them all.

$$3 + 1 = \boxed{4}$$

$$2 + 3 = \boxed{5}$$

$$3 + 1 = \boxed{4}$$

$$2 + 3 = \boxed{5}$$

How: To add, count all the pictures in both groups. To take away, count only the ones not crossed out. Fingers or small toys can help too.

3 Words to know

add put together to make more

take away remove some, leaving fewer

in all the total when groups are put together

left how many are still there

4 Watch for

- Counting the crossed-out ones as if they were still there.
- Counting only one group when adding.
- Counting the last picture of the first group again when starting the second.

5 Where it fits

THIS SHEET

K.OA.A.1

Show adding and taking away with objects, fingers, drawings or acting it out.

NEXT

K.OA.A.2

Solve adding and taking-away story problems within 10.

6 Helping at home

Act it out with toys: 3 cars in the garage and 2 more drive in. How many now? Then drive 1 away.
