How: Find today, then move one day: the day before is yesterday and the day after is tomorrow. Saying the days in order helps.

③ Words to know

yesterday the day before today

today this day, now

tomorrow the day after today

week 7 days, Sunday to Saturday

month one of the 12 parts of a year

④ Watch for

- Mixing up yesterday and tomorrow.
- Forgetting that after Saturday the week starts again at Sunday.
- Missing a month when saying them in order, like April straight to June.

⑤ Where it fits
