GUIDE

1 What this sheet practises

Finding the number that goes with any number from 1 to 9 to make 10. Ten frames show how many spaces are still empty.

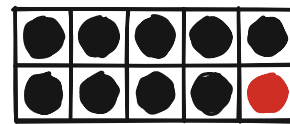

2 A problem from the sheet, worked out

Fill the frame How many more to make 10? Draw them in.

more

8

more

1

How: A ten frame has 10 spaces. Count the empty spaces to find how many more make 10. Check by counting them all: it should reach 10.

3 Words to know

ten frame a box with 10 spaces, in two rows of 5

make 10 two numbers that add up to 10

how many more what you still need to add

pair two numbers that go together

4 Watch for

- Writing the number of filled spaces instead of the empty ones.
- Being one off, like 3 and 6 instead of 3 and 7.
- Drawing too many dots, so the frame goes past 10.

5 Where it fits

BEFORE

K.OA.A.3

Break numbers up to 10 into pairs in more than one way.

THIS SHEET

K.OA.A.4

Find the number that makes 10 with any number from 1 to 9.

NEXT

1.OA.C.6

Add and subtract within 20 using strategies like making ten and doubles.

6 Helping at home

Hold up some fingers and ask how many more make 10. Pairs like 6 and 4 are worth knowing by heart.
