GUIDE

1 What this sheet practises

Sorting a mixed pile of pictures into kinds, counting each kind, and saying which kind has the most.

2 A problem from the sheet, worked out

Sort and count Count each kind. Cross them off as you go.

How: Pick one kind and cross off each one as you count it, then write the number. Do the same for each kind. Every picture should end up crossed off.

3 Words to know

sort put things that are alike together
kind a group of things that are the same
most the biggest number
fewest the smallest number

4 Watch for

- Counting a picture twice because it wasn't crossed off.
- Counting two kinds together because they look alike.
- Saying the kind with the biggest pictures has the most.

5 Where it fits

THIS SHEET

K.MD.B.3

Sort objects into groups and count each group.

NEXT

1.MD.C.4

Sort, show and read data with up to three categories.

6 Helping at home

Sort laundry, toys or a bowl of mixed snacks into kinds. Count each pile and ask which has the most and which the fewest.
